

Upload of your presentation by September 16th, 2025

Dear speakers,

from now on you have the possibility to upload your contribution for the congress in the [congress portal](https://www.dgrh-kongress.de).

In the following you will find information on how to prepare and upload your presentation.

Prepare your presentation

- Please note that only Microsoft PowerPoint presentations (.pptx) incl. video contributions can be submitted.
- The **page format** should be set to **16:9** or "screen presentation"; with an image quality of at least 1920x1080 px. Fonts should be embedded.
- If your presentation includes videos, you can either embed them in the PowerPoint presentation or upload them separately. If you are using PowerPoint 2007 or an older version, please upload your videos separately, as they cannot be embedded in the presentation.
- Links to external websites are not possible.
- Please note that the presenter view, including PowerPoint notes, cannot be used.
- For a uniform congress look and feel, we ask you to use the MASTER SLIDE (download [here](#)) in congress design (except company symposia).
- **Conflicts of interest:** Please provide your details on potential conflicts of interest on the second (or third) slide of your presentation. According to the regulations of the responsible state medical association, conflicts of interest should be visible for at least 10 seconds.

Upload your presentation

- Please upload your presentation via the [congress portal](https://www.dgrh-kongress.de) in the **module "Upload: eposter & presentations"** by **September 16th, 2025** at the latest.
- At the beginning of the presentation upload you have the possibility to upload a profile picture and - for an even better exchange - to allow participants to contact you via email (your email address will not be visible).
- Please note that the submission of presentations via e-mail is not possible.

On-Site:

- A beamer projection is available in all rooms.
- It is generally **not** possible to connect your own notebook or computer, as the projection is controlled centrally.
- In exceptional circumstances, it is also possible to upload your presentation data on site at the Speaker Service Centre; however, there may be a longer queue time before sessions with numerous presentations.
- You can view and edit your presentation in the Speaker Service Centre **up to three hours before your presentation**. You will find the opening hours on the

Kongresspräsidenten

Prof. Dr. Andreas Schwarting
